MT1051

Compact Size Bookserver

MT1051, a special design to meet the space-saving and high performance workstation needs. It could vertical stand up as a tower or horizontal desktop. Within the compact size, the MT1051 fits in a slim CD-ROM, a slim floppy disk drive and two swappable IDE hard disk drives. With screwless snap-in front panel and front access cover, MT1051 allows user to assemble and maintain easily in front end. Furthermore with the front USB ports, user can easily access their USB devices.
